

Usability Test Report & Recommendations

Project Title

Redesigning a Public Service Platform for Enhanced UX & Accessibility

1. Objective

The objective of usability testing was to evaluate how effectively users can navigate and use the redesigned public service platform.

2. Test Participants

Participants:

- 5 users aged between 18 and 60 years
 - Citizens familiar with basic internet usage
 - Users with different levels of digital experience
-

3. Tasks Performed

Participants were asked to complete the following tasks:

1. Search for a public service.
 2. Apply for a birth certificate.
 3. Track an application.
 4. Access the Help Center.
-

4. Findings

Positive Findings

- Users easily understood the dashboard layout.
- Navigation between screens was simple.
- Application tracking information was clear.
- Users completed tasks quickly.

Issues Identified

- Some users wanted larger buttons.

- Users preferred color indicators for application status.
 - Additional help tips would improve usability.
-

5. Recommendations

1. Increase button size for better accessibility.
 2. Add color-coded status indicators.
 3. Add tooltips and guidance messages.
 4. Improve visual hierarchy using icons and spacing.
 5. Add a search suggestion feature.
-

6. Conclusion

The redesigned platform improved usability, accessibility, and overall user satisfaction. The platform provides a simple and efficient experience for citizens accessing public services online.
